
International Galleries and Albums

Posted by trekker2 - 2007/07/05 21:07

We have had a recent development that requires us to build out the remainder of our fototrek public galleries. We intended to do this all along but with the recent submission of shots from Egypt, Norway, and London by a new member (welcome aboard brummieboy: /cpg1410/thumbnails.php?album=lastupby&uid=106), we need to step this up.

Here is the plan: we have introduced a gallery for each continent (i.e. Africa, Anartica, Asia, Australia, Central America, Europe, North America, and South America). Some of these galleries are further organized into counties and/or regions. Within that we are creating albums where you can store your images.

Nothing would make us happier than to see images on this site from every country in the world. However, we don't want to setup albums that are not going to be used and just add clutter.

What we have done instead is to add a "Main" album for each continent. If you want to load images for a country and cannot find a place to put it, place it into the "Main" album for the applicable continent and we will introduce further galleries as necessary.

If at anytime you are confused about where to place your images, create a public album in your user area and name it accordingly (i.e. "Ukraine"), drop us an email (admin@fototrek.com), and we can work together to continue to build out the very best web destination for travel related digital photography.

Thank you very much for being a member of the fototrek community. We are off to a good start and look forward to seeing great images from contributors from all over the world.

Hey brummieboy, great shots! I will move your pics around later today. Hopefully the new albums are available to everyone now. I will keep creating them as needed.

Thanks and keep sharing those great shots.

Sorry to be a pain but if you set me one up for Kent, UK as well I shall load you up some nice sunrises. Thanks

Phil

Phil, no pain at all. Thanks for hanging in with us as we work out the album setup.

I created an album within the UK gallery called "Kent".

I really look forward to seeing those sunrises.

Richard (trekker2)

Phil,

I moved your images to the fototrekn albums. I am hopeful the following is true:

1. I moved things to the correct regional libraries.
2. You still maintain ownership over those images so you can alter, edit, and/or delete at will.
3. All our members have access to view the images and add comments and ratings.

I believe this to be true.

I added Cuba and other Caribbean countries. Let me know if you have any difficulties. I look forward to seeing those posts.

Thanks

Trekker2
