
My California Trip

Posted by shutterpro - 2007/07/02 22:08

Hi everyone,

I am going to be spending about nine days later this month in California. Starting at LA, then heading up the coast to Montrey Bay then over to the Sequoia National Forest.

I will be posting pictures so look for some new stuff from California.

If anyone has any suggestions for places to take in, just let me know.
