
Trek to Phoenix and Toronto

Posted by traveler - 2007/08/13 13:35

My job is taking me to Toronto and Phoenix in September. I am attending a couple of conferences but am planning to add a couple of days to each trip and try to get some pictures.

I am going to have limited time, maybe a day or two, at each site so I have to do some planning. I will post a trek to include the planning and the results of each trip.

If any of you have ever visited these areas or know some good resources I can use to plan my trip, please feel free to share.
